

Try to read pages 1-63 by Friday morning.

Book Clubs

-1  $\frac{9}{10}$

Name

~~Ryan~~ Loz

One word I didn't know is fingerpicked on page 23

It means a method of playing a stringed instrument.

A question I have to ask the group is What does the author mean

When Brian shot the animal and the author said when he didn't get a clean angle on the rabbit.

Information about this question might be found on page He didn't get a good

angle on the rabbit.  
Something to share with the group is the following, found on page 28

(this could be a scene or situation you really enjoyed, a description you liked, an intense or scary part of the story, an opinion you formed, something you're wondering, etc.)

I want to share <sup>that he knew</sup> the arrowheads were made out of

stone which is great because that is a great survival  
skill.

Make notes of anything else you'd like to discuss with your group.

I having nothing else to share.

You need to have this filled out.
