

How do you feel about coming to school? Explain why.

I feel great when I come to school because
it is very fun learning things and making new

My strengths are You can write a bulleted list here. Write at least **five** things. friends

- Writing
- computers
- P.E
- Science
- History

I need to work on: Again, a bulleted list is ok, Write at least **five** things

- Math
- Language Arts
- Listening
- Read the directions
- Music

Goals and Action Plans

Choose **three** of the items from your "**need to work on**" list. Write a smart goal for each one.

Make sure they are SMART:

Specific, Measurable, Achievable, Relevant, Timely

Example:

I need to work on completing my homework. I will do this by having my mom or dad sign my planner after I have shown them my completed homework each night.

Goal 1 I need to work on following the directions.
I will do this by reading the directions four times.

Goal 2 I need to work on listening. I will do this by repeating it back out loud.

Goal 3 I need to work on getting better at math. To do this I will study the concept until I get it.

Rose and Thorn

Think back on the work you've done this quarter. Decide on an assignment/ test/ project you are especially proud of (rose) and one you are not as proud of (thorn)

I chose this assignment as my rose because....

I chose Newton's Second Law as my rose because I did really well on it and I got all the questions right.

I chose this assignment as my thorn because...

I chose The Bigfoot Quiz as my thorn because I did not do well on it, didn't read the directions, and did not read it carefully.

Looking back

In this section write three to five sentences about a highlight from the quarter. Explain why it was a highlight.

When I was doing Newton's First Law and Newton's Second Law it was the highlight of the quarter.

I was the highlight of the quarter because I got all of the questions right.
It was the highlight quarter of 5th grade.

Also write three to five sentences about a time that was not your favorite. What can you learn from this experience and how would you handle it differently in the future?

In math I did not like my Ch 7 Review.

To learn from it I can double check my answers and show the work. I will handle it differently by understanding

Looking ahead

What questions do you have about 6th grade? Is there anything else you would like to talk about?

What do you do in 5th grade? What math do you learn about? What do you do in writing in 5th grade? Will we have music instruments next year?
