What are you liking most about this book? I like how this book is similar to Hatchet and how Brian is trying to survive.

As you are reading this book, be aware of the emotions it causes in the reader. **What are some of those feelings?**

For example, compassion, fear, curiosity, disgust, understanding, hope, etc.

List 2 or 3, then discuss one **emotion** and the scene that caused it.

frustration, Sadness, fear

one emotion I feel is fear because he is trying to survive
rain and winter and he could die that makes me feel...

Another emotion I feel is sadness because you don't know
he is going to survive like when that mobse was chomping at him
that makes you sad.

Discuss a connection you had while reading this book. What did it make you think of that was outside the text? Reminder: Text to text, Text to Self, or Text to World

It makes me think of camping because you are out in
the wilderness surviving just like Brian is.

What is one prediction you made before you finished this assigned reading? I predicted that a person would find Brian.
