

The Emperor's New Clothes

Name LOZ

In this story people were afraid to state the obvious because they were afraid of looking stupid or being unfit for their jobs. Think of an example in today's world of somebody being too afraid to stand up for what is right or what they believe. Explain the situation. Discuss why you think they might stay quiet about it. Write 6-8 sentences. 10 points

One example in today's world where people are afraid to talk about what we believe in is one detail about COVID that people are afraid to talk about is the fear of wearing a mask and it is bad for your health. Another detail that people think but are afraid to say is that our government should not force us to wear masks. People are afraid to talk about these thoughts is because ^{they are} afraid of being judged harshly. Another reason is because they are afraid of losing their friends. The final reason is because they are afraid of getting kicked out of a store.

I agree!
