CHAPTERS 17 and 18

**QUOTATIONS:** The words a character speaks can give the reader important information about the characters, the plot, or the theme of the story. Find three places in the book where you learned important or helpful information from something a character said. Write the quotation (remember to use quotation marks and use the exact words) and next to that write which character said it. Then write why you think this is an important quotation: what information does it give the reader? Write page numbers!
